Round 1: Clips 01-07

Age bank (months):

• 3 months	• 9 months	• 18 months	• 36 months
• 6 months	• 12 months	• 24 months	

Pay attention to vowel-like sounds, repeated syllables, word-like utterances, word combinations, and longer utterances. Some audios have adult's speech, which should be ignored.

Clips 01–07 come from TalkBank/CHILDES' *Speech Samples at Seven Ages*, prepared for the Louisville Science Museum.

Choose the closest age category for each clip; **ages may repeat**. The recordings are near these ages, not necessarily on a birthday. Listen to the child's sounds, words, turn-taking, and utterance length. You do not need to understand every word. Avoid treating features of an unfamiliar language as signs of younger age.
