Post-lecture Assignment (PLA) 3: Interview with an Urban Bilingual: The Questionnaire
Fall 2026 • Prof. Tomonori Nagano <tnagano@lagcc.cuny.edu>

For this Post-lecture assignment (PLA), you should develop questions for the interview with a functional bilingual. This is the first step to be completed for your Research Paper #1, which will be discussed during the class next week.

1. Read the instructions for the Research Paper #1 (at the bottom of the class website at <https://www.t-nagano.com/mycourses/ELN101/>)
2. Download the example interview recordings and listen to the interviews. Click this link to download interview recordings at <https://t-nagano.link/Wr2pi>.
3. Pay attention to the question and its response in the transcript.
4. Develop your own list of questions for the interview you are to conduct for Research Paper #1. Feel free to borrow questions from the example interviews. You should aim for at least 10 questions (since not all questions will be used during your interview). Each question should be followed by a short explanation about the goal of the question (i.e., why you are asking this question). The following questions are some examples that you may want to include in your interview:

- What languages do you speak at home?
 - Why: I need to know what languages the interviewee speaks. I used "at home" since many people do not share their family/home language unless specified.
- When did you start speaking that language?
 - Why: I need to know when the interviewee spoke that language to decide the "timing" (early vs. late) of their bilingual type.

Submit your list of interview questions through Brightspace ELN101 Week 03 PLA.
